### **Workshop for new teaching materials and teacher retraining**

A group of Sts Cyril and Methodius University from Skopje realized this visit in the scope of the teacher retraining activity and analyzing procedures for quality control and monitoring. Our host was Prof. D-r Dilip Patel.

We have visited the site where enrollment was realized (as final clearance at the university). We have analyzed how this process is realized at the university and analyzed booklets and other brochures.

During our visit we also discussed what is new offered as curriculum. We have analyzed how the development of new curricula at South Bank University for undergraduate studies and adaptation of their existing studies to fulfill latest requirements in UK for Faculty of Business, Computing & Information Management (BCIM).

Special attention was given to the following issues: what the student choose, what is attractive for them, what changes are to be performed in order to realize the course.
