Workshop:

Workshop on Financial analysis and reporting

Bitola, August 2007

Workshop on Financial analysis and reporting

This was a visit dedicated to final reporting and analysis of realized activities. We analyzed the progress of the project and define which activities have to be performed in the final month of the project realization. The focus of the discussions was mainly concerning monitoring, quality control and dissemination activities. The meeting was organized by Prof. D-r Margaritis, Prof. D-r Hatziprokopiu, Mrs. Maria Chanioti, from University of Macedonia.

The enormous number of workshops, visits and teacher retraining visits were performed in order to achieve project outcomes, and huge number of deliveries such as introduction of study programs, new curricula, unit guides, developed new courses, e-learning and conventional teaching material.

We also discussed several issues towards realization of further actions or definition of follow up activities and projects.
